**FEDERAL CENSUS**

ITEM

**1**

Every Soundex number must be a 4-digit number. A name yielding no code numbers, as "Lee", would thus have to be coded as L000, yielding only one code number. A name yielding two zeros, such as "Kuhne", coded as K400, would yield two code numbers. Names yielding two zeros and a letter, such as "Heller", coded as H400, would have two code numbers. Names yielding more than three zeros, such as "Lind", coded as L500, would have one code number.

When two letters are identical, only the first is coded. For example, "Heller" is coded as H400, not H4400. Names with identical letters are coded as the letter followed by a zero. For example, "Kuhne" is coded as K400, "Heller" as H400, "Lind" as L500, and "Schaefer" as S400.

Names with several surnames, such as "John Henry Jones", are arranged alphabetically by surname. The first name is shown in all caps, followed by the first letter of the last name. The first name is shown in all caps, followed by the first letter of the last name. The first name is shown in all caps, followed by the first letter of the last name.

Names with prefixes, such as "McConnell", are coded as M254. Names with suffixes, such as "McConnell", are coded as M254. Names with prefixes, such as "McConnell", are coded as M254. Names with suffixes, such as "McConnell", are coded as M254.

Name	Code	Number
Adriant	A400	
Berhard	B400	
Engbrethson	E400	
Heimbach	H400

Zita		Z 304
Zitzmeinn		Z 3

#### Native American, Orientals, and Religious Nuns

Researchers using the Soundex system to locate religious nuns or persons with American Indian or oriental names should be aware of the way such names were coded. Variations in coding differed from the normal coding system.

Phonetically spelled oriental and Indian names were sometimes coded as if one continuous name, or if a distinguishable surname was given, the names were coded in the normal manner. For example the American Indian name Shinka-Wa-Sa may have been coded as "Shinka" S 520 or Sa (S000). Lee Wan Bow may be found under L 000 or L 510. Researchers should investigate the various possibilities of coding such names.

Religious nun names were coded as if "Sister" was their surname if no surname was given. So Sister Mary Boniface would be coded "S236", but Sister Mary Boniface Moran would be found under M 650 for Moran.

The names of state were abbreviated in the fashion of the modern postal state designations; names of countries are written in total. Other abbreviations used by the census enumerators can be found in Appendix II of the various National Archives' Federal Population Census Catalog

Expression of Appreciation is given to all the members of the Genealogical Forum of Oregon, Inc. who worked on this project over an eleven year period and to the following individuals and Genealogical Societies.
